

SPARK YOUR CURIOSITY

JOIN US TO EXPLORE THE SCIENCE
BEHIND GENE THERAPY RESEARCH

“Understanding the Immune System and Its Relationship to Gene Therapy”

*An Educational Program sponsored by Spark® Therapeutics
in collaboration with Bleeding Disorders Association of South
Carolina.*

Presented by: **Lesley Milliner RN, BSN, MBA**
Lead Patient Education Manager

Sharks! Elephants! Vectors! Oh My!
Curious what these have to do with gene therapy? Join us to find out.
In this session, we'll review how investigational gene therapy is
designed to work for hemophilia, introduce you to the main characters
of the immune system, and take a look at how the immune system
works in the context of gene therapy.

Date:	August 1st 2024
Time:	6:30 p.m. EST
Location:	City Range Steak House 615 Haywood Rd. Greenville, SC 29607
RSVP:	Sue Martin Sue.martin@bda-sc.org
