South Carolina Advocates in HFA's National Advocacy Network

South Carolina residents opted into HFA national advocacy outreach

Distribution by U.S. congressional district | HFA data snapshot: October 14, 2025

Source: Hemophilia Federation of America (HFA), national advocacy outreach opt-in data.
These are HFA advocacy outreach records for South Carolina residents, not BDASC membership totals.
Six records are not assigned to a congressional district. Prepared for BDASC advocacy planning.

A Strong Statewide and National Advocacy Network

BDASC has its own network of advocates across all seven congressional districts and 43 counties in South Carolina. Together with HFA’s national advocacy outreach opt-in data, this demonstrates a strong, connected voice for people living with bleeding disorders across our state.
